

U.S. Diversified Real Estate ETF PPTY

Q1 2023 Factsheet

INVESTMENT OPPORTUNITY

Vident's proprietary investment philosophy is expressed through distinct fundamentals that we believe should be top of mind when it comes to investing. These fundamentals are woven through the construction of the USREX - U.S. Diversified Real Estate Index™ (USREX) and the U.S. Diversified Real Estate ETF that tracks it. The application of Vident's investment methodology seeks to produce a portfolio that emphasizes four primary factors – location, property type, leverage, and governance – while employing a rules-based methodology that seeks to generate diversified exposure to the liquid U.S. real estate market.

KEY FEATURES

LOCATION

We believe location is a key driver of real estate performance. The index employs stable property allocation targets to obtain diversified geographic exposure that favors dynamic, high-growth, and productive areas in the

U.S. PROPERTY TYPE

Apartment or office? Industrial or retail? Differences between property types matter. Fixed allocations seek to ensure diversification and balance across total assets and companies.

LEVERAGE

In our opinion, the responsible use of leverage can enhance returns, but too much debt is concerning. The index favors companies with prudent leverage and optimizes the portfolio to direct capital away from highly levered companies.

GOVERNANCE

The governance factor model is used to avoid certain real estate risks. The index considers alignment between shareholder and management, derivation of revenue, and other governance indicators. Firms with significant governance risks are excluded from the portfolio.

The dividend yield is a financial ratio, expressed as a percentage, that shows how much a company pays out in dividends each year relative to its stock price. The dividend yield is calculated by taking the annual dividend per share and dividing it by the price per share.

Carefully consider the Vident ETF's investment objectives, risk factors, charges, and expenses before investing. To obtain a prospectus, [download one here](#) or call 800-617-0004. Please read it carefully before investing.

Investments involve risk. Principal loss is possible. The ETF has the same risks as the underlying securities traded on the exchange throughout the day at market price. The ETF's investments will be concentrated in an industry or group of industries to the extent the Index is so concentrated, and the Index is expected to be concentrated in real estate-related industries. The composition of the Index is heavily dependent on a proprietary quantitative model as well as information and data supplied by third parties ("Models and Data"). The ETF is expected to invest substantially all of its assets in real estate-related companies. Investments in real estate companies involve unique risks. Real estate companies, including REITs, may have limited financial resources, may trade less frequently and in limited volume, and may be more volatile than other securities. The risks of investing in real estate companies include certain risks associated with the direct ownership of real estate and the real estate industry in general. Securities in the real estate sector are subject to the risk that the value of their underlying real estate may go down. The equity securities of smaller companies have historically been subject to greater investment risk than securities of larger companies. Certain weightings or breakdowns may not total 100% due to rounding or exclusion of cash from the calculation.

The ETF's investment adviser is Vident Advisory, LLC and sub-adviser is Vident Investment Advisory (VIA). Vident Financial owns the index that underlies the ETF. PPTY is distributed by ALPS Distributors, LLC. ALPS is not affiliated with Vident Financial, Vident Advisory or VIA.

Diversification does not ensure a profit or protect against a loss. Fund holdings and allocations are subject to change and should not be considered a recommendation to buy or sell any security.
